JM-CT2 Series

▶ **CT1 Series Long nose pliers**
Made of high-quality steel, with long and hardened jaw, used for wire stripping.

▶ **CT1 Series Diagonal pliers**
With wide and hardened jaw, labor-saving.

▶ **CT1 Series Flat nose pliers**
Made of high-quality steel, with long and hardened jaw, used for wire stripping.

▶ **CT2 Series American style long nose pliers**
Made of high-quality steel, with long and hardened jaw, used for wire stripping.

▶ **CT2 Series American style diagonal pliers**
With wide and hardened jaw, labor-saving.

Cold-rolled steel 08F

- **CT4 Series Crimping Pliers**
Used for wire crimping, stripping and trimming. Suitable for cutting two type wires (6P, 8P).

- **CT4 Series Multifunctional Wire Stripper**
Used for wire crimping, stripping and trimming. Suitable for cutting three type wires (4P, 6P, 8P). Equipped with wire stripping knife for wire stripping and clamping.

- **CT4 Series Multifunctional Wire Stripper**
Suitable for wires in 0.6 to 2.6 mm. Round hole design can protect wire from damage and make it easy to strip wires.

Accessories Box

Features:

Fashionable, small and portable. The switch with slide fastener is sturdy, safe and convenient. The grids in the accessories box can be dismantled and assemble by yourself.

JM-Z14

PCB Holder Series

JM-Z15

Anti-static and Heat-proof Working Mat

Features:

Made of silicone which meet the American FDA standard with high temperature resistance.
Individual grid section can keep different components.
Applicable to all the electronic maintenance and repair workshop.
Can be used with magnetic mat to store and mark the screws or parts easily.

JM-Z16

Anti-static and Heat-proof Working Mat

Features:

Made of silicone which meet the American FDA standard with high temperature resistance.
Individual grid section can place different components.
Applicable to all the electronic maintenance and repair workshop.
The magnetic mat can store the parts safely and easily.

JM-Z17

8X Optical Magnifier

Features:

With two imported CREE LED lamps.
It's workable even in dark environment.
Large diameter lens makes it more clear and convenient to observe.
The handle's end part is round-shaped, with small holes in butterfly shape which is beautiful and can increase the frictional force.
Application:
Digital product repair, education and instrument evaluation, printing industry, home living and machinery industry.

JM-Z19

Multipurpose Components Storage Box

Features:

Made of PP plastic.
Dismountable inner lining with different sizes can meet all your storage needs.
With double-layer design, you can make full use of space.

JM-Z20

LCD Screen Opening Pliers

Features:

- Patented product.
- Ergonomically designed handle with non-slip texture grip for comfortable hold.
- Adjustable tablet holder to any size of tablets and mobiles.
- Multiple angle PVC suction cup, easier to take apart every gadgets you want.

JM-OP05

Roller Opening Tool

Features:

- Common used in laptops, mobiles and tablets disassembling.
- Special rolling-wheel design for opening.
- Made of high quality stainless steel, durable

JM-OP06

3 In 1 Metal Spudger Set

Features:

- More durable with special alloy steel material.
- Easy-grip handle with just the right length for comfortable use.
- Multi-type head design for different appliances.

3PCS

JM-OP07

Flexible Opening Tool

Features:

- New imported memory material for repeat operation .
- Slim design for disassembling mobile phones, tablet computers.

JM-OP08

LCD Screen Opening Pliers

Features:

Patented product.
Ergonomically designed handle with non-slip texture grip for comfortable hold.
Extra large suction cup with multi-angle design, can easily and safely open over 4.7 inches of phones and tablets. Original pulling screw-thread design, the suction power is up to 60%.

JM-OP10

10 IN 1 Anti-static Fiber Opening Tools

10PCS

Features:

The spudger is made of anti-static material which can efficiently protect electronic components from static. Best angle for prying, make your disassembling easier. The product is stable and durable after high pressure injection molding. Ergonomic design makes the grip more comfortable.

JM-OP11

Double-head Heads Flexible Opening Tool

Features:

Patented design. Made of ingenious memory metal with good flexibility and resilience to protect electronic products from impactive damage. Protective cover for the security. With spatial mechanical characteristics, it can work speedy even in the most difficult reaching place. (Ultrathin and flexible with 0.25mm thickness)

JM-OP12

Precision Anti-static Metal Crowbar

Features:

Made of high quality alloy steel.
Anti-static coating makes it more durable.
Suitable for disassembling phone, computer, gamepad and other electronics.

JM-OP13

LCD Screen Opening Tool Set

Features:

Patent product.
Made of ingenious memory metal with good flexibility and resilience to protect electronic products from impactive damage. With spatial mechanical characteristics, it can work rapidly even in the most difficult reaching place.

Accessories:

- 1.Screen opening plier
- 2.Double-end opening tool

2PCS

JM-OP14

Opening Tool Set

Features:

High toughness and good flexibility.
Made of imported anti-static environmental-friendly POM with great toughness and hardness. Equipped with rolling opening tool (JM-OP06) and double-end metal opening tool (JM-OP12) that can help you disassemble items quickly.

13PCS

JM-OP15

Fiber Opening Tool

Features:

Made of imported anti-static environmental-friendly POM, with high toughness and abrasion resistance. The working part with mechanics design makes your repair job more convenient.

6PCS

JM-OP16

Multifunctional Roller Screwdriver Tool

Features:

With precision bright chrome bits and flexible roller opener.
Application:For iPhone 7 and above models disassembling.
Use*0.8 bit to remove the two screws on the bottom of the phone.
Use the heat gun to heat the edge of screen for opening.Use OP022 roller to inset the edge of screen for a round until the screen is dismantled.

Bright chrome bits H4*28mm:

⊙ Y0.8 ⊗ 0.8 ↔ 1.5 ⊕ 1.5

Accessories:

- 1.OP021 Roller
- 2.OP022 Roller

9PCS

JM-OP17

Curved Screen
Disassemble Blade

1PCS

Features:

- *Specially designed for 98% of curved screen phone
- *High toughness
- *Made of SUS301 high flexibility steel
- *Epoxy handle design
- *Appropriate size

JM-OP18

Thick Triangular Slice

Quadrangled Spudger

JM-OP010

JM-SK01

Solder pen 15g

JM-SW01

Thermal conductive grease

JM-SW02

Soldering paste

JM-SW03

Solder sucker

JM-Z02

Simple Y-type soldering iron stand

JM-Z03

Tip cleaning sponge

JM-Z04

Aluminium alloy carving knife

JM-Z05

Aluminium alloy scraper

JM-Z06

30° Art and craft knife

JM-Z07

Push type alcohol bottle 120ml

JM-Z10

Push type alcohol bottle 180ml

JM-Z11

Memory metal tin scraping knife

JM-Z12

Double-sided plush glasses cloth

JM-CS05

Rubber dust blower

JM-CS11

Digital Multimeter

JM-832

Precision diamond file

5PCS

JM-FL1-1

Single screwdriver set

5PCS

JM-999

B series large-sized tool bag

Size: 36*25*23cm

JM-B01

B series medium-sized tool bag

Size: 35.5*21*17cm

JM-B02

B series small-sized tool bag

Size: 27*15*12cm

JM-B03

B series tool waist bag

JM-B04

Stainless steel magnetic connector

JM-TP-01

Cursor ruler

JM-R12

Anti-static wrist strap

JM-E01

Powerful LCD suction cup

Features:

Made with environmental PVC material. Fine seal-ability, oil proof, anti-corrosion and nondeformable.

Metal screw-thread axis with a ABS plastic handle. Pull and suction capacity has been improved to 60%.

Suitable for disassembling screens off mobiles and tablets.

3PCS

JM-SK04

Combined suction cup for iPhone 7

Features:

Working part is made of environmental protection PVC material which is not easily deformed.

The handle is made of ABS and TPE with high hardness and comfortable hand feeling.

When you opened the iPhone 7 screen the suction can be used as a holder to hold the disassembled part and making your repair job more convenient.

JM-SK05

Electric Soldering Iron

Power:
SL01 30W
SL02 40W
SL04 60W

JM-SL0 Series

9 IN 1 Hex Key Set

Surface:
Galvanized
Length:
77mm-185mm

JM-HK2-1

Mini Size Magnetizer and Demagnetizer

JM-X1

Mini Size Magnetizer and Demagnetizer

JM-X2

Large Size Magnetizer and Demagnetizer

JM-X3

Components Adsorption Bracelet

Features:

Lock catch design.

Good looking and easy to use.

The band of the bracelet can be adjusted according to different wrist size.
It can be used to magnetize and adsorb small components.

JM-X4

Magnetic Wristband

Features:

Made of 420 D oxford fabric.

Velcro design can fit all the size of wrist.

Suitable for home improvement for gathering screws, nails and drill bits.

JM-X5

Component Grabber

Material:

Precision Cast Steel

Features:

Apply to home improvement and outdoor infrastructure.

Ultra-precision processing which can make it not easy to damage.

The tiny components will not easy to fall off with four claws when gripping.

With strong magnetic that can adsorb small screws and nails in certain areas.

JM-T8-11

Replaceable Anti-static Tweezers Set

7PCS

Accessories:

- Curved tweezers
- Pointed tweezers
- Replaceable screws
- Stainless steel handle

Features:

The active part of the tweezers is made of carbon fiber with the features of high hardness and anti-static.
The tweezers' head is replaceable according to demand.

JM-T10-11

Replaceable Anti-static Flexible Tweezers Set

7PCS

Accessories:

- Curved tweezers
- Pointed tweezers
- Replaceable tweezers
- Stainless steel handle

Features:

The active part of the tweezers is made of carbon fiber with the features of high hardness, anti-static and flexible.
The tweezers' head is replaceable according to demand.

JM-T10-12

Efficient Anti-static Tweezers Set

3PCS

Features:

The product is made of carbon fiber with the features of high hardness, anti-static and high temperature resistant.

JM-T11

Tweezers are made of SUS201
HRC 35~40°C

T2 Series ▶

Black plated surface
The thickness of tweezers is 1.4mm

Tweezers are made of SUS201
HRC 35~40°C

T7 Series ▶

Black plated surface
The thickness of tweezers is 1.8mm
Hardened head

- ▶ **11 Series Long Nose Tweezers**
The tweezers' tip is longer than standard length and it's suitable for operating precision parts
- ▶ **12 Series Short Pointed Tweezers**
The tweezers' tip is harder than standard tweezers. The tweezers' tip will not warp when clipping precision parts.
- ▶ **13 Series Flat Tweezers**
The tweezers' tip is round so that it can protect parts from damage. It's suitable for picking up chips.
- ▶ **14 Series Pointed Tweezers**
The tweezers' tip is very sharp and it's well for operating high intensity integrated circuit's parts.
- ▶ **15 Series Curved Tweezers**
It's suitable for picking up parts of high intensity integrated circuit in narrow places.

Use of the bits:
